

To our valued Members and Guest:

Due to the impositions applied by the CDC in the US requiring all passengers entering the US via air, Los Cabos Golf Resort has retained the medical services from Metamedics to provide the COVID Antigen test to all whom may want to get the test on site here at the Resort.

The procedure to follow is simple and easy.

1. You will be given a form at reception upon check in to fill in the required information such as name as it appears on the passport, date of birth, return date, COVID test date (best, the day before departure) email and time.
2. Time will be scheduled on the test date beginning at 3PM with intervals of 10 minutes for each person, choosing a time is not an option. Only one person at a time for the test in the doctor's office even if you are family.
3. All tests will be done in the doctor's office we have provided for such test.
4. Cost of the test will be \$400.00 pesos. You will pay directly in cash or credit card to the person administering the test.
5. Test results will be ready in approximately 30 minutes.

Note: You are not obligated to take the test here at the resort, you can choose where to have it taken if you do not want to use the service we have provided for your convenience. If you sign up for the test you will be charged if you do not show up or miss your scheduled time, if you have to reschedule you will be charged again, no exceptions.

We hope you have a great vacation in Cabo and that your return home goes smoothly.
